## 2023 Voluntary Contributions and Charges

Please note that the level of Voluntary Contributions and Charges has been approved by the School Board.

**Voluntary Contributions:** The school receives a grant each year from the Department of Education, which provides most of the material and resources necessary for students to access educational programs.

The voluntary contributions will assist the school to enhance programs by providing additional resources and materials. These contributions go towards further supporting Hyden Primary School in creating an innovative learning environment for students to learn and reach their full potential. Contributions are deployed directly to student learning; for example, curriculum items, activities and initiatives.

Voluntary contributions greatly assist us in forming part of the school budget, and we request that they are paid by the end of Term 1. A range of payment options are available and may be negotiated with the school. Payment may be made with cash, cheque or direct payment into the school bank account.
